LEADING THE WAY IN FULLY FORMULATED INHIBITED GLYCOL-BASED HEAT TRANSFER FLUIDS

Today we are proud to announce the merger of **KOSTChill** and **RECOFREEZE** brands into a single global brand, **SOLUTHERM™**. As the global industry leader in vehicle antifreeze+coolants with our iconic brand **Prestone®** and as the top manufacturer of fully formulated **INHIBITED GLYCOL-BASED HEAT TRANSFER FLUIDS**; we offer a range of aluminum safe, food grade and LEED certified formulations specifically developed for optimal thermal management in HVAC applications.

INDUSTRIES COVERED

HVAC - Infrastructure

- Air heating/cooling
- Floor heating
- Ice rink

Energy

- Solar
- Geothermal
- Wind
- Hydraulics

Food & Beverage

- Fermentation cooling
- Meat freezing
- Dairy product
- Beverage processing

Industrial Processing

- Distillation, extraction & reaction of chemical processes
- Plastic processes
- Pharmaceutical processes

Data Centers

- Direct chip cooling

Oil & Gas

- Insulated heating

Miscellaneous

- Snow melting

SOLUTHERM™ Services is an array of services that we offer to our customers to meet their needs.

- Formulation selection specifically developed for your application
- In-use testing and remediation
- Industry specific technical guidance
- Tailored trainings & sessions
- Education material (webinars, newsletters, video capsules, whitepapers, etc.)

Product line designed to supply a type of protection, specific to the application needs.

A wide range of non-application specific formulations. All solutions contain inhibitors and offer thermal protection.

Formulations specifically developed to be environmentally safe and ensure an excellent performance.

COMING SOON

Formulations specifically designed to maintain a low conductivity environment whilst providing excellent corrosion protection.
